

FlowView Pro - macademy has announced new Version

• Easy-to-setup Script Workflows

- Configuration of workflows on HELIOS servers in an incomparable easy way
- No more input of environment variables and corresponding values
- Workflow re-configuration with Drag&Drop

• Graphical Overview of complex Workflows

- Script dependencies in workflows are displayed like the work flows
- Customizable workflow views for each user
- Access to files involved in workflows without browsing through the folder structure
- Multi-lingual application

• Extended Scripting Functionalities

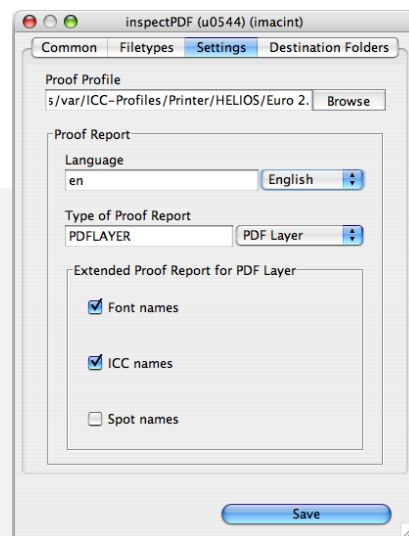

- Time Scripts running at specified times of weekdays, monthdays or at specified intervals each day
- HELIOS Hotfolder Scripts and Time Scripts can be combined in same workflow

• Full HELIOS Compatibility

- Workflows created with FlowView Pro are fully compatible to the HELIOS Script Server engine
- FlowView Pro runs on HELIOS UB and 4th Generation products

• More Information

- Detailed information and a FlowView Pro demo version from macademy at www.flow-view.com

UGSoft commits to design FlowView Pro Scripts

• Why this Commitment?

- The combination of the HELIOS scripting functionality together with FlowView Pro's workflow views and individually designable dialogs is the ideal tool for UGSoft to design powerfull and easy-to-configure scripts
- UGSoft starts this commitment by offering the following tool packages for FlowView Pro - more to come

• FileTools Package

- Hotfolder Scripts and Time Scripts, e.g. to copy/move files, delete layout files, set permissions, type, creator, etc.
- Extends flexibility in creating workflows

• ScriptingTools Package

- Hotfolder Scripts and Time Scripts, e.g. to send automated file events, notify user on specific situations, etc.
- Extends workflows to interact with the user, e.g. when observation of documents is required or errors occurred

• FileConversionTools Package

- Hotfolder Scripts and Time Scripts to convert HELIOS files to HFS+, AppleDouble and HQX
- Implements UGSoft's stand-alone ES-Convert application
- Thus, users will be able to use all features of this powerfull tool
- Extends cross-platform workflows, e.g. which need to provide files in several different file formats

• Prices

- | | |
|-------------------------------|-----------------------|
| - FileTools Package | 395 Euro (plus taxes) |
| - ScriptingTools Package | 295 Euro (plus taxes) |
| - FileConversionTools Package | 225 Euro (plus taxes) |

• More Information

- Please visit www.ugsoft.de for more information
- You are looking for specific scripting functionalities? Just ask UGSoft at flow-view@ugsoft.de. We would be happy to design your requirements into customized scripts
- Or take a look at www.flow-view.com to find your script from the list of FlowView Pro scripts offered by other vendors
